Introduction and Methodology

Since 1976, Statistics and Data Development Unit of Alberta Agriculture, Food and Rural Development have monthly surveyed the prices of some common Alberta farm inputs. The prices are collected by Wild Rose Agricultural Producers in partnership with the Statistics and Data Development Unit.

In 2001, a review of the data and information was completed, to ensure that the inputs monitored were relevant and consistent with Alberta's current farming practices, and that adequate coverage of the entire province was captured.

Effective July 2001, the number of farm inputs priced monthly was increased to 53 from 45 previously, and the number of centers across Alberta expanded to 25 from 18. The revised list of farm inputs includes a number of new inputs, while some of the old inputs were dropped or modified.

Monthly average prices reported are intended to serve as a guide only. Actual current prices may differ.
